PROFESSIONAL SUMMARY

Entry-level Web Developer specializing in React-based frontend development with hands-on experience building scalable, responsive web applications. Proven ability to optimize UI performance, integrate REST APIs, and deliver production-ready features during a full-stack internship.

EXPERIENCE

Hackwit Technology, Chennai — *Web Full Stack Intern*

AUG 2025- OCT 2025

- Built 6+ full-stack modules using React, JavaScript, and MySQL, improving overall application usability and performance.
- Reduced page load time by ~30% through component optimization and efficient state management.
- Improved API response time by 20–40% using optimized database queries and caching strategies.
- Tested and validated REST APIs using Postman and followed Git-based version control workflows.

EDUCATION

Sathyabama University, Chennai — *B.TECH IT*

Expected Graduation: 2027

CGPA: 7.15 / 10

C.H.S.S, Chennai — *Higher Secondary (12th Standard)*

2022 - 2023

Score: 77%

PROJECTS

Movie Ticket Booking— [demo](#)

Tech Stack: React.js, JavaScript, HTML, CSS, MongoDB

Built a React-based movie ticket booking system with authentication, real-time seat selection, and cart workflow, optimizing UI rendering and component reusability.

Role: Designed and implemented the **entire frontend architecture** independently.

Grocery Delivery Website—*full stack*

Tech Stack: React.js, JavaScript, HTML, CSS, MongoDB

Improved UI responsiveness and reduced unnecessary re-renders through reusable component architecture.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3,

Responsive Design

Backend & DB: MongoDB,

MySQL, REST APIs

Tools: Git, GitHub, Postman, VS Code

Concepts: State Management, Authentication Flow, CRUD Operations

CERTIFICATIONS

SQL and Relational Databases 101 – IBM Cognitive Class

Full Stack Developer Intern – Hackwit Technology

AWS Cloud & Data Analytics – Great Learning (AWS Partner)

LANGUAGES

Tamil, English
